

Infosafe No™	3CHBP	Issue Date : September 2020	RE-ISSUED by CHEMSUPP
--------------	-------	-----------------------------	-----------------------

Product Name : **Light Green SF Yellowish, Certified LR C.I. 42095**

Not classified as hazardous

**1. Identification**

**GHS Product Identifier** Light Green SF Yellowish, Certified LR C.I. 42095

**Company Name** CHEM-SUPPLY PTY LTD (ABN 19 008 264 211)

**Address** 38 - 50 Bedford Street GILLMAN  
SA 5013 Australia

**Telephone/Fax Number** Tel: (08) 8440-2000

**Emergency phone number** CHEMCALL 1800 127 406 (Australia) / +64-4-917-9888 (International)

**Recommended use of the chemical and restrictions on use** pH indicator below pH 3.8 - Yellow and above pH 5.4 - Blue.

**Other Names****Name****Product Code**

Light Green SF Yellowish, Certified LR C.I. 42095

LL133

**Other Information**

Chem-Supply Pty Ltd does not warrant that this product is suitable for any use or purpose. The user must ascertain the suitability of the product before use or application intended purpose. Preliminary testing of the product before use or application is recommended. Any reliance or purported reliance upon Chem-Supply Pty Ltd with respect to any skill or judgement or advice in relation to the suitability of this product of any purpose is disclaimed. Except to the extent prohibited at law, any condition implied by any statute as to the merchantable quality of this product or fitness for any purpose is hereby excluded. This product is not sold by description. Where the provisions of Part V, Division 2 of the Trade Practices Act apply, the liability of Chem-Supply Pty Ltd is limited to the replacement of supply of equivalent goods or payment of the cost of replacing the goods or acquiring equivalent goods.

**2. Hazard Identification**

**GHS classification of the substance/mixture** Classified as non-Hazardous according to the Globally Harmonised System of classification and labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia.

**3. Composition/information on ingredients****Chemical Characterization** Solid**Ingredients**

<u><b>Name</b></u>	<u><b>CAS</b></u>	<u><b>Proportion</b></u>	<u><b>Hazard Symbol</b></u>	<u><b>Risk Phrase</b></u>
Light Green SF Yellowish, Certified LR C.I. 42095	5141-20-8	100 %		

**4. First-aid measures**

**Inhalation** If inhaled, remove from contaminated area to fresh air immediately. Apply artificial respiration if not breathing. If breathing is difficult, give oxygen. Immediately obtain medical aid if cough or other symptoms appear.

**Ingestion** Rinse mouth thoroughly with water immediately, repeat until all traces of product have been removed. DO NOT INDUCE VOMITING. Seek medical advice if effects persist.

**Skin** Wash skin with water using soap if available. If persistent irritation occurs, obtain medical attention.

**Eye contact** Immediately irrigate with copious quantity of water for at least 15 minutes. Eyelids to be held open. In all cases of eye contamination it is a sensible precaution to seek medical advice. If contact with the eye(s) occurs, wash with copious amounts of water for approximately 15 minutes holding eyelid(s) open. Take care not to rinse contaminated water into the non-affected eye. Seek medical attention if effects persist.

**First Aid Facilities** Maintain eyewash fountain and drench facilities in work area.

**Advice to Doctor** Treat symptomatically based on judgement of doctor and individual reactions of the patient.

**Other Information** For advice, contact a Poisons Information Centre (Phone eg Australia 13 1126; New Zealand 0800 764 766) or a doctor.

**5. Fire-fighting measures**

**Suitable extinguishing media** Water spray, dry chemical, carbon dioxide or alcohol-resistant foam.

Infosafe No™	3CHBP	Issue Date : September 2020	RE-ISSUED by CHEMSUPP
--------------	-------	-----------------------------	-----------------------

Product Name : **Light Green SF Yellowish, Certified LR C.I. 42095**

Not classified as hazardous

<b>Hazards from Combustion Products</b>	Toxic Fumes.
<b>Special Protective Equipment for fire fighters</b>	Full protective clothing and self-contained breathing apparatus.
<b>Specific hazards arising from the chemical</b>	Carbon, Nitrogen, Sulphur and Sodium oxides.

**6. Accidental release measures**

<b>Personal Precautions</b>	Avoid inhalation, contact with skin, eyes and clothing.
<b>Personal Protection</b>	Wear protective clothing specified for normal operations (see Section 8)
<b>Clean-up Methods - Small Spillages</b>	Sweep up (avoid generating dust) and remove to a suitable, clearly labelled container for disposal in accordance with local regulations.
<b>Environmental Precautions</b>	Prevent from entering into drains, ditches, rivers or the sea.

**7. Handling and storage**

<b>Handling and Storage</b>	Store in a cool, dry, well ventilated place. Store away from incompatible substances.
<b>Precautions for Safe Handling</b>	Avoid ingestion and inhalation of dust. Avoid contact with eyes, skin, and clothing. Minimize dust generation and accumulation. Keep containers tightly closed when not in use. Use with adequate ventilation. In case of insufficient ventilation, wear suitable respiratory equipment. Wash thoroughly after handling. Protect against physical damage. Keep container dry.
<b>Conditions for safe storage, including any incompatibilities</b>	Store in suitable, labelled, tightly closed containers, in a cool, dry, well-ventilated area away from incompatible substances.

**8. Exposure controls/personal protection**

<b>Other Exposure Information</b>	No exposure standards have been established for this product by Safe Work Australia, however, the TWA exposure standard for dusts/mists not otherwise specified is 10 mg/m <sup>3</sup> . All atmospheric contamination should be kept to as low a level as is workable. These Workplace Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These workplace exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.
<b>Appropriate engineering controls</b>	Maintain the concentrations values below the TWA. This may be achieved by process modification, use of local exhaust ventilation, capturing substances at the source, or other methods.
<b>Respiratory Protection</b>	Where ventilation is not adequate, respiratory protection may be required. Avoid breathing dust, vapours or mists. Respiratory protection should comply with AS 1716 - Respiratory Protective Devices and be selected in accordance with AS 1715 - Selection, Use and Maintenance of Respiratory Protective Devices. Filter capacity and respirator type depends on exposure levels. In event of emergency or planned entry into unknown concentrations a positive pressure, full-facepiece SCBA should be used. If respiratory protection is required, institute a complete respiratory protection program including selection, fit testing, training, maintenance and inspection.
<b>Eye Protection</b>	The use of a face shield, chemical goggles or safety glasses with side shield protection as appropriate.
<b>Hand Protection</b>	Must comply with Australian Standards AS 1337 and be selected and used in accordance with AS 1336. Wear gloves of impervious material conforming to AS/NZS 2161: Occupational protective gloves - Selection, use and maintenance. Final choice of appropriate glove type will vary according to individual circumstances. This can include methods of handling, and engineering controls as determined by appropriate risk assessments. Avoid skin contact when removing gloves from hands, do not touch the gloves outer surface. Dispose of gloves as hazardous waste.
<b>Personal Protective Equipment</b>	Personal protective equipment should not solely be relied upon to control risk and should only be used when all other reasonably practicable control measures do not eliminate or sufficiently minimise risk. Guidance in selecting personal protective equipment can be obtained from Australian, Australian/New Zealand or other approved standards.
<b>Body Protection</b>	Wear suitable protective clothing and gloves to prevent skin contact. Safety glasses, goggles or

Product Name : **Light Green SF Yellowish, Certified LR C.I. 42095**

Not classified as hazardous

**Hygiene Measures** faceshield as appropriate.  
Always wash hands before smoking, eating or using the toilet. Wash contaminated clothing and other protective equipment before storing or re-using.

**9. Physical and chemical properties**

**Form** Solid  
**Colour** Purple.  
**Odour** Odourless.  
**Melting Point** 288°C - dec.  
**Molecular Weight** 792.86

**10. Stability and reactivity**

**Chemical Stability** Stable under normal temperatures, pressures and ordinary conditions of use and storage.  
**Conditions to Avoid** Incompatible materials, excess heat.  
**Incompatible Materials** Strong oxidising agents.  
**Hazardous Decomposition Products** In the event of fire: refer section 5.

**11. Toxicological Information**

**Respiratory sensitisation** Not classified based on available information.  
**Skin Sensitisation** Not classified based on available information.  
**Germ cell mutagenicity** Not classified based on available information.  
**Carcinogenicity** Not classified based on available information.  
**Reproductive Toxicity** Not classified based on available information.  
**STOT-single exposure** Not classified based on available information.  
**STOT-repeated exposure** Not classified based on available information.  
**Serious eye damage/irritation** Not classified based on available information.  
**Mutagenicity** Not classified based on available information.  
**Other Information** To the best of our knowledge, the chemical, physical and toxicological properties have not been thoroughly investigated.

**12. Ecological information****Acute Toxicity - Fish** LC50 - Oryzias latipes - 1,000 mg/l (48 h)**13. Disposal considerations****Disposal Considerations** Whatever cannot be saved for recovery or recycling should be handled as hazardous waste and disposed of according to relevant local, state and federal government regulations.**14. Transport information****Transport Information** Not classified as a Dangerous Good according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.**15. Regulatory information**

**Regulatory Information** All of the significant ingredients in this formulation are compliant with Australian Industrial Chemicals Introduction Scheme (AICIS) regulations. Not listed under WHS Regulation 2011, Schedule 10 - Prohibited carcinogens, restricted carcinogens and restricted hazardous chemicals.  
**Poisons Schedule** Not Scheduled

**16. Other Information**
