

Infosafe No™ 3CHIZ	Issue Date : October 2019	RE-ISSUED by ABS
--------------------	---------------------------	------------------

 Product Name **MAYER No1HAEMATOXYLIN**

Not classified as hazardous

1. Identification

GHS Product Identifier	MAYER No1HAEMATOXYLIN
Company Name	AUSTRALIAN BIOSTAIN Pty Ltd
Address	24 - 28 Stratton Drive, Traralgon, Victoria, Australia, 3844 www.australianbiostain.com.au
Telephone/Fax Number	Tel: (03) 5176 2855
Emergency phone number	CHEMCALL (24 hours): 1800 127 406 (Australia) / +64-4-917-9888 (International)
E-mail Address	www.australianbiostain.com.au
Recommended use of the chemical and restrictions on use	General purpose staining reagent for laboratory use.

Other Names
Name
Product Code

MAYER No1HAEMATOXYLIN

AHM1

Other Information

Australian Biostain Pty Ltd does not warrant that this product is suitable for any use or purpose. The user must ascertain the suitability of the product before use or application intended purpose. Preliminary testing of the product before use or application is recommended. Any reliance or purported reliance upon Australian Biostain Pty Ltd with respect to any skill or judgement or advice in relation to the suitability of this product of any purpose is disclaimed. Except to the extent prohibited at law, any condition implied by any statute as to the merchantable quality of this product or fitness for any purpose is hereby excluded. This product is not sold by description. Where the provisions of Part V, Division 2 of the Trade Practices Act apply, the liability of Australian Biostain Pty Ltd is limited to the replacement of supply of equivalent goods or payment of the cost of replacing the goods or acquiring equivalent goods.

2. Hazard Identification

GHS classification of the substance/mixture	Classified as non-Hazardous according to the Globally Harmonised System of classification and labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia. Not classified as dangerous goods according to the Australian Dangerous Goods Code (ADG).
Other Information	Protocols in which this material/reagent is used may greatly influence Risks/Hazards. Even though a Hazard or Risk is not identified, this does not exclude that an effect may or can occur.

3. Composition/information on ingredients

Ingredients	<u>Name</u>	<u>CAS</u>	<u>Proportion</u>
	Glycerol	56-81-5	<35 %
	Acetic acid	64-19-7	<3 %
	Aluminium Sulfate 18 Hydrate	7784-31-8	<2 %
	Haematoxylin	517-28-2	<0.5 %
	Sodium periodate	7790-28-5	0.05 %
	Water to make a total of	7732-18-5	100%

4. First-aid measures

Inhalation	Inhalation of any vapours from this product is not likely to present an acute hazard. If inhaled, remove from contaminated area to fresh air immediately. Apply artificial respiration if not breathing. If breathing is difficult, give oxygen. Immediately obtain medical aid if cough or other symptoms appear.
-------------------	--

Infosafe No™ 3CHIZ Issue Date : October 2019 RE-ISSUED by ABS

Product Name **MAYER No1HAEMATOKYLIN**

Not classified as hazardous

Ingestion	Rinse mouth thoroughly with water immediately, repeat until all traces of product have been removed. DO NOT INDUCE VOMITING. Seek medical advice if effects persist.
Skin	Irritation unlikely. If irritation occurs wash with plenty of soap and water.
Eye contact	Immediately irrigate with copious quantity of water for at least 15 minutes. Eyelids to be held open. In all cases of eye contamination it is a sensible precaution to seek medical advice.
First Aid Facilities	Maintain eyewash fountain and safety shower in work area.
Advice to Doctor	Treat symptomatically based on judgement of doctor and individual reactions of the patient.
Other Information	For advice, contact the National Poisons Information Centre (Phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor.

5. Fire-fighting measures

Hazards from Combustion Products	Only small quantities of decomposition products are expected from this product at temperatures normally achieved in a fire. This will only occur after heating to dryness. Temperature and combustion of material in vicinity may cause formation of toxic fumes.
Specific Methods	Use extinguishing media most appropriate for the surrounding fire. No limitations to the type of extinguishing media. Use water, CO ₂ , or dry chemical depending upon other chemicals that may be present in vicinity.

6. Accidental release measures

Personal Precautions	Ensure that all handling is carried out in an area of good ventilation, Certified fume cupboards are recommended. Wear protective eyewear, nitrile gloves and apron. In the event of spill confined to fume cupboard, contain spill with paper towel or similar absorbent material, collect into biohazard bag and seal for disposal with relevant authority. For spills outside of fume cupboard, contain spread of spill with paper towel, sawdust or vermiculite, collect into biohazard bags, seal and dispose through relevant authority; clean up area with cold (do not use hot water) soapy water.
Personal Protection	Wear protective clothing specified for normal operations (see Section 8)
Clean-up Methods - Small Spillages	Absorb or contain liquid with sand, earth or spill control material. Shovel up using non sparking tools and place in a labelled, sealable container for subsequent safe disposal. Put leaking containers in a labelled drum or overdrum.

7. Handling and storage

Precautions for Safe Handling	Avoid fumes. Wear Safety glasses, gloves and protective apron. Work in an area of good ventilation, an approved fume cupboard is preferred. No eating or drinking in workplace, wash hands whenever leaving work area.
Conditions for safe storage, including any incompatibilities	Keep containers tightly closed. Read safety directions before use. Avoid contact with metals.

8. Exposure controls/personal protection

Occupational exposure limit values	Name	STEL		TWA		Footnote
		mg/m ³	ppm	mg/m ³	ppm	
	Glycerol			10		As Glycerin mist
	Acetic acid	37	15	25	10	

Infosafe No™ 3CHIZ	Issue Date : October 2019	RE-ISSUED by ABS
--------------------	---------------------------	------------------

Product Name **MAYER No1HAEMATOXYLIN**

Not classified as hazardous

Aluminium Sulfate 18 Hydrate	2	Aluminium, soluble salts (as Al)
------------------------------	---	----------------------------------

Other Exposure Information No exposure standards have been established for this product by Safe Work Australia, however, the TWA exposure standard for dusts/mists not otherwise specified is 10 mg/m³. Safe Work Australia has established the above exposure limits for Glycerol, Aluminium sulphate and Acetic acid. These Workplace Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These workplace exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity. The STEL is an exposure value that should not be exceeded for more than 15 minutes and should not be repeated for more than 4 times per day. There should be at least 60 minutes between successive exposures at the STEL. The exposure value at the TWA is the average airborne concentration of a particular substance when calculated over a normal 8 hour working day for a 5 day working week.

Appropriate engineering controls Maintain the concentrations values below the TWA. This may be achieved by process modification, use of local exhaust ventilation, capturing substances at the source, or other methods.

Respiratory Protection Not normally required.

Eye Protection Normally not required but if in doubt ensure eye protection complies with Australian Standards AS 1337 and be selected and used in accordance with AS 1336.

Hand Protection Wear gloves of impervious material conforming to AS/NZS 2161: Occupational protective gloves - Selection, use and maintenance. Final choice of appropriate glove type will vary according to individual circumstances. This can include methods of handling, and engineering controls as determined by appropriate risk assessments. Avoid skin contact when removing gloves from hands, do not touch the gloves outer surface. Dispose of gloves as hazardous waste.

Personal Protective Equipment Personal protective equipment should not solely be relied upon to control risk and should only be used when all other reasonably practicable control measures do not eliminate or sufficiently minimise risk. Guidance in selecting personal protective equipment can be obtained from Australian, Australian/New Zealand or other approved standards.

Hygiene Measures Always wash hands before smoking, eating or using the toilet. Wash contaminated clothing and other protective equipment before storing or re-using.

9. Physical and chemical properties

Appearance Purple liquid.

pH >2

10. Stability and reactivity

Reactivity Stable.

Chemical Stability Stable under normal use conditons.

Conditions to Avoid Temperature extremes and direct sunlight.

Incompatible Materials Strong oxidisers, metals.

Hazardous Decomposition Products Only small quantities of decomposition products are expected from this product at temperatures normally achieved in a fire. This will only occur after heating to dryness.

Hazardous Polymerization Will not occur.

Infosafe No™ 3CHIZ	Issue Date :October 2019	RE-ISSUED by ABS
--------------------	--------------------------	------------------

Product Name **MAYER No1HAEMATOXYLIN**

Not classified as hazardous

11. Toxicological Information

Ingestion	Significant oral exposure is considered to be unlikely and is unlikely to cause any irritation problems in the short or long term.
Inhalation	Unlikely to cause any irritation or discomfort.
Skin	Mild skin irritation may occur.
Eye	May be irritating to the eyes.
Carcinogenicity	No significant ingredient is classified as carcinogenic by Safe Work Australia. No significant ingredient is classified as carcinogenic by International Agency for Research on Cancer.
Mutagenicity	No information available.
Other Information	Even though no information may be available or a risk is considered minimal, this does not mean that an effect cannot occur. PLEASE NOTE:- PROTOCOLS IN WHICH THIS SOLUTION IS USED, OR THE PROXIMITY OF OTHER REAGENTS MAY SIGNIFICANTLY ALTER RISK STATUS.

12. Ecological information

Ecotoxicity No ecological data available for this product.

13. Disposal considerations

Disposal Considerations Whatever cannot be saved for recovery or recycling should be disposed of according to relevant local, state and federal government regulations.

14. Transport information

Transport Information Not classified as a Dangerous Good according to the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG); by the IATA Air Transport Dangerous Goods Regulations; or by the IMDG (International Maritime Dangerous Goods) Code.

15. Regulatory information

Regulatory Information All of the significant ingredients in this formulation are compliant with NICNAS regulations. Not listed under WHS Regulation 2011, Schedule 10 - Prohibited carcinogens, restricted carcinogens and restricted hazardous chemicals.

Poisons Schedule Not Scheduled
